

QCL AQCC 2027 - World Agenda + Take-Home Bible v13.3

Public-facing program architecture for a 1,000-person AI + Quantum Computing Conference: 08:00-10:00 keynotes/roundtables, 10:00-17:00 workshops, 16 tracks and 64 take-home kits. Prepared-only status: no speaker, sponsor, outreach, medical, security, payment or DNS action executed.

Days	Tracks	Workshop routes	Take-home kits	External actions
4	16	64	64	0

Day	Date	Theme	Take-home
Day 1	Wednesday, February 24, 2027	AI + Quantum Launchpad	World-stage thesis memo, track roadmap and 30-day backlog.
Day 2	Thursday, February 25, 2027	Security, Finance and Sovereign Capabilities	Risk register, PQC migration worksheet, financial-system resilience map and policy gate.
Day 3	Friday, February 26, 2027	Science, Medicine and Quantum Cure	Research translation canvas, biomedical claims gate and lab modernization checklist.
Day 4	Saturday, February 27, 2027	Longevity, Education and Institutional Hacking	Policy implementation memo, school/talent roadmap, board pack and owner handoff.

Day	Time	Mainstage highlight	Output
Day 1	08:00-08:12	Mexico City as the AI + Quantum Launchpad for the Americas	World-stage framing memo
Day 1	08:12-08:50	The AI + Quantum Decade: From Models to Matter	AI + quantum decade thesis sheet
Day 1	08:50-09:30	Frontier AI CEO Roundtable: What Breaks, What Scales, What Must Be Governed?	Executive frontier AI risk and opportunity memo
Day 1	09:30-10:00	AI and Quantum Ethics and Regulation?	Governance checklist for AI + quantum adoption
Day 2	08:00-08:35	Quantum National Security?	National readiness question set
Day 2	08:35-09:10	Global Financial System Security in the Quantum Era	Financial-system risk map
Day 2	09:10-09:40	Cybersecurity, Crypto and Quantum-Safe Systems	PQC migration and AI security control checklist
Day 2	09:40-10:00	Sovereign AI and Critical Infrastructure Readiness	Sovereign capability heatmap

Prepared only - no speaker claim, no invite, no Apollo upload, no Apollo import, no enrichment, no LinkedIn scrape, no LinkedIn message, no email, no CRM mutation, no medical claim, no security instruction, no government endorsement claim, no sponsor claim, no registration launch, no payment action, no press action, no API generation and no DNS change executed.
